Max Kendall is an adventure seeking boy, who lives an isolated life on a barren, climate ravaged quarantine zone, along with his father William, a famous scientist and creator of androids, determined to find a cure for the cause of their rebellion against mankind, who have come to depend on them for survival, but now spell certain doom.

When they discover Adam, a faceless android boy, they realise that he harbours the cure that could end the rebellion but must survive being marooned in the hostile rebel quarantine, evading the dreaded Military General Hayward, intent on destroying all androids.

Max soon discovers things are even more complicated, as Adam's origins and his own are closely intertwined, holding the key to his own destiny and the secrets to his father's darker legacy - a destiny that will unite human and android and prevent the end of mankind on Earth.

CREW

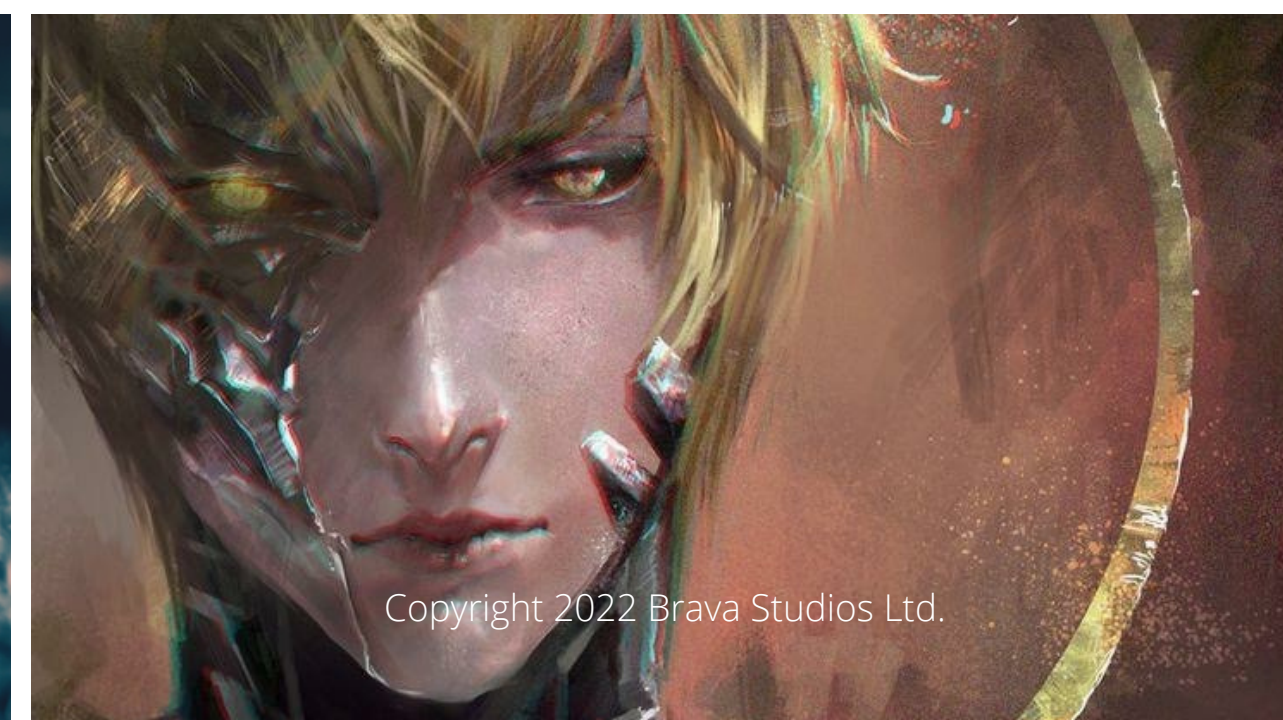

SAMESH RAMJATTAN
